

HANDS-ON WORKSHOPS

Saturday May 26, 2018

8:00–13:00

Ospedale Regionale di Lugano

Fees:

CHF 60 (until 15.04.18)

CHF 100 afterwards

Places are primarily reserved to participants of the congress

Registration:

SSNS2018.congress-imk.ch

FACULTY:

PD Dr. med. Alessandro Cianfoni, Lugano | Neuroradiology
Dr. med. Maurizio Isalberti, Lugano | Neuroradiology
Dr. med. Dominique Emanuelle Kühlen, Lugano | Neurosurgery
Dr. med. Thomas Robert, Lugano | Neurosurgery
Dr. med. Pietro Scarone, Lugano | Neurosurgery

HONORED GUEST FACULTY:

Dr. med. Maurizio Fornari, Milan, IT | Neurosurgery Unit Director,
Humanitas Research Hospital

Dear Colleagues,

It is a great pleasure to invite you to the 1st Lugano Spine Workshop that will take place during the next SSNC-SSNR Congress.

The Neurocenter of Southern Switzerland is a pioneer in multidisciplinary treatment of various types of spinal diseases, including degenerative, traumatic and neoplastic conditions. We strongly believe in collaboration between different specialties, the only way to achieve the best solution for every individual case.

During this workshop, both Neurosurgeons and Interventional Neuroradiologists will be exposed to the most common MIS surgical and interventional approaches to the spine, including MIS decompression of spinal canal done on Realspine models, and fluoroscopically and CT-guided approaches to the spine on saw bone torso models, for percutaneous treatment of traumatic and neoplastic conditions.

The aim of this course is to give each participant an overall view of the most up-to-date minimally invasive procedures, in spinal surgery as well as in spinal interventional radiology.
